DETAILED ACTION

Claim Objections

1. Claims 5, 8, 9, and 11 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend on another multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Regarding claim 1, the phrase "such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. Also in claim 1, the term "optionally" also renders the claim indefinite since it is unclear if the limitations following the term are intended to be part of the claimed limitations or not. See MPEP § 2173.05(d). The use of quotation marks in claims 8 & 9 renders the claims indefinite since it is unclear what the quotes signify.

Claims 2-12 are improper dependent claims because these claims as worded do not further limit the parent claim as required by 35 U.S.C. 112, fourth paragraph; the dependent claims simply describe aspirations of the invention, not structural elements.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-4, 6, 7, 10, and 12 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Pratt (EP 0 467 643 A2).
